2. Add warm filtered tap water to 1/2-gallon mark and dissolve contents by shaking.
3. Add remaining 8 cups of sugar and mix again.
4. Add cold filtered tap water to fill.
5. Each packet will make one gallon of syrup.

Store indoors in cool, dry place below 75° F. Keep away from intense light, heat and humidity.

SHELF LIFE IS UP TO 8 WEEKS. Some flavors expire sooner than others: Banana, Birthday Cake, Butterbeer, Coconut, Cheesecake, Cola, and Vanilla. You may refrigerate the flavors to preserve shelf life, but it is not necessary.
